

Quality Policy

Version: 2.1
June 2023

Introduction

Plastribution are committed to the highest standards of service. The principal elements of our policy are: -

- a) To develop and maintain a Quality Management System satisfying the requirements of BS EN ISO 9001:2015 which forms the basis of a sustainable business with a focus on continual improvement.

- b) To focus on the requirements of our interested parties.

- c) To maintain an accurate knowledge of and comply with relevant legislation, requirements, best practice, and guidelines.

- d) To establish & maintain a business structure capable of supporting company activities & realising company objectives.

The Plastribution Vision

To be the preferred supplier of Polymers and Products to UK Plastics Processors, and for our supply partners.

Current Quality Objectives (June 2023)

- a. OTIF 99% dependent on current conditions
- b. Internal errors < 1.0%

The responsibility for this total commitment to quality lies with every one of us, as we can all make a contribution to improving our company's performance.

Mike Boswell

**Managing Director
Plastribution Ltd**
